**HERMITAGE HEIGHTS PASTURAGE.**

The Hermitage Heights Pastures contain 200 acres of BLUE GRASS, CLOVER and BERMUDA GRASS, interspersed with beautiful running streams, and is unexcelled in this section of the country. A specialty is made of Veterinary Treatment, and the Pasturage has the added advantage of the constant attendance of a Veterinary specialist, who has had thirty-five (35) years' experience in the U. S. Cavalry. Horses are pastured, and if necessary, treated for every conceivable ailment (except those of a contagious nature,) on very reasonable terms.

A large number of Box Stalls are furnished.

In special cases, arrangements are made to pasture horses at night, obviating the possibility of color being changed or darkened by too much exposure to mid-day sun.

Treatment of Contracted Feet is a specialty. We have in use "Pasture Tips" or "Slippers," which are scientifically applied according to the usage of the best Veterinary Universities.

In fact, our Veterinary Department is supplied with every appliance for treating all classes of complaint in Horses, (except those of a contagious nature, which we invariably decline), and our experience covers every disease known to the Equine Anatomy.

We also take Horses by agreement to feed night and morning.

Thorough Breaking for SADDLE or HARNESS executed by careful and scientific methods.

If your horse shows temper or even undue restiveness, send him to us. We can correct his faults.

If your horse is LAME, or suffering from any other disability we can help and probably cure him.

Separate Pastures for Milk Cows or Fine Dairy Stock.

# Electropoise

TRADE MARK.

## The Electropoise

The Electropoise is a scientific instrument for the cure of disease without medicine. Based on new theories as to the cause and cure of disease, it deals with the electrical and magnetic conditions of the body and gases surrounding it in the atmosphere. The principal and most common need of the sick is Oxygen—pure Oxygen—and this the Electropoise supplies, by putting the system in such a condition that it absorbs Oxygen from the atmosphere.

The Electropoise is not a patent medicine; not a mysterious or miraculous cure; not a battery or belt, nor in any way akin to the many "electrical cure-alls" advertised.

It is a reliable and truly wonderful treatment, CURING diseases pronounced INCURABLE by eminent physicians. It is endorsed by the best people of this and adjoining States. The Company owning the Electropoise is composed of Southern gentlemen and some of the most prominent men of Georgia, Alabama and adjoining States are interested in it.

Many of the best and most prominent citizens of Atlanta own and advocate the use of the Electropoise.

Do not despair before investigating this wonderful treatment. We will be pleased to have all impartial investigators visit our office, or write for our 90 page book of testimonials, whether they wish to buy or not.

Every genuine Electropoise stamped as above. Beware of worthless imitations and infringing counterfeits.

## Southern \* Medical \* College, ATLANTA, GA.

The Sixteenth Annual Session of this Institution will Commence  
October, 1894, and continue Five Months.

The coming term offers facilities for medical study superior to any other in this section. A new and magnificent building will accommodate three hundred students, and all of the equipments are first-class in every particular. The site of the building is immediately across the street from the new Grady Hospital of the City of Atlanta, where every opportunity will be offered for the clinical study of disease. Instruction will consist of didactic and clinical lectures in the College Amphitheatre and in the Hospital. Course thorough in all departments. The winter climate of Atlanta is attractive, conducive to health and well adapted to study. For information address

Course of study comprehensive and thorough, preparing young men for college or for the practical pursuits of life.

Room large, airy and accessible; furniture new and neat; chemical and physical apparatus; cabinet of minerals, botanical collections, charts, globes, maps and other appliances for effective work.

The long experience of the Principal in the preparation of boys for the University of Georgia, the uniformly high standing of his pupils in college and their success in after years, fully warrant him in thus presenting the advantages of his School and the benefits derived from his personal training.

The discipline of the School is such as will commend itself to the careful consideration of thoughtful parents.

**TO STUDENTS:**

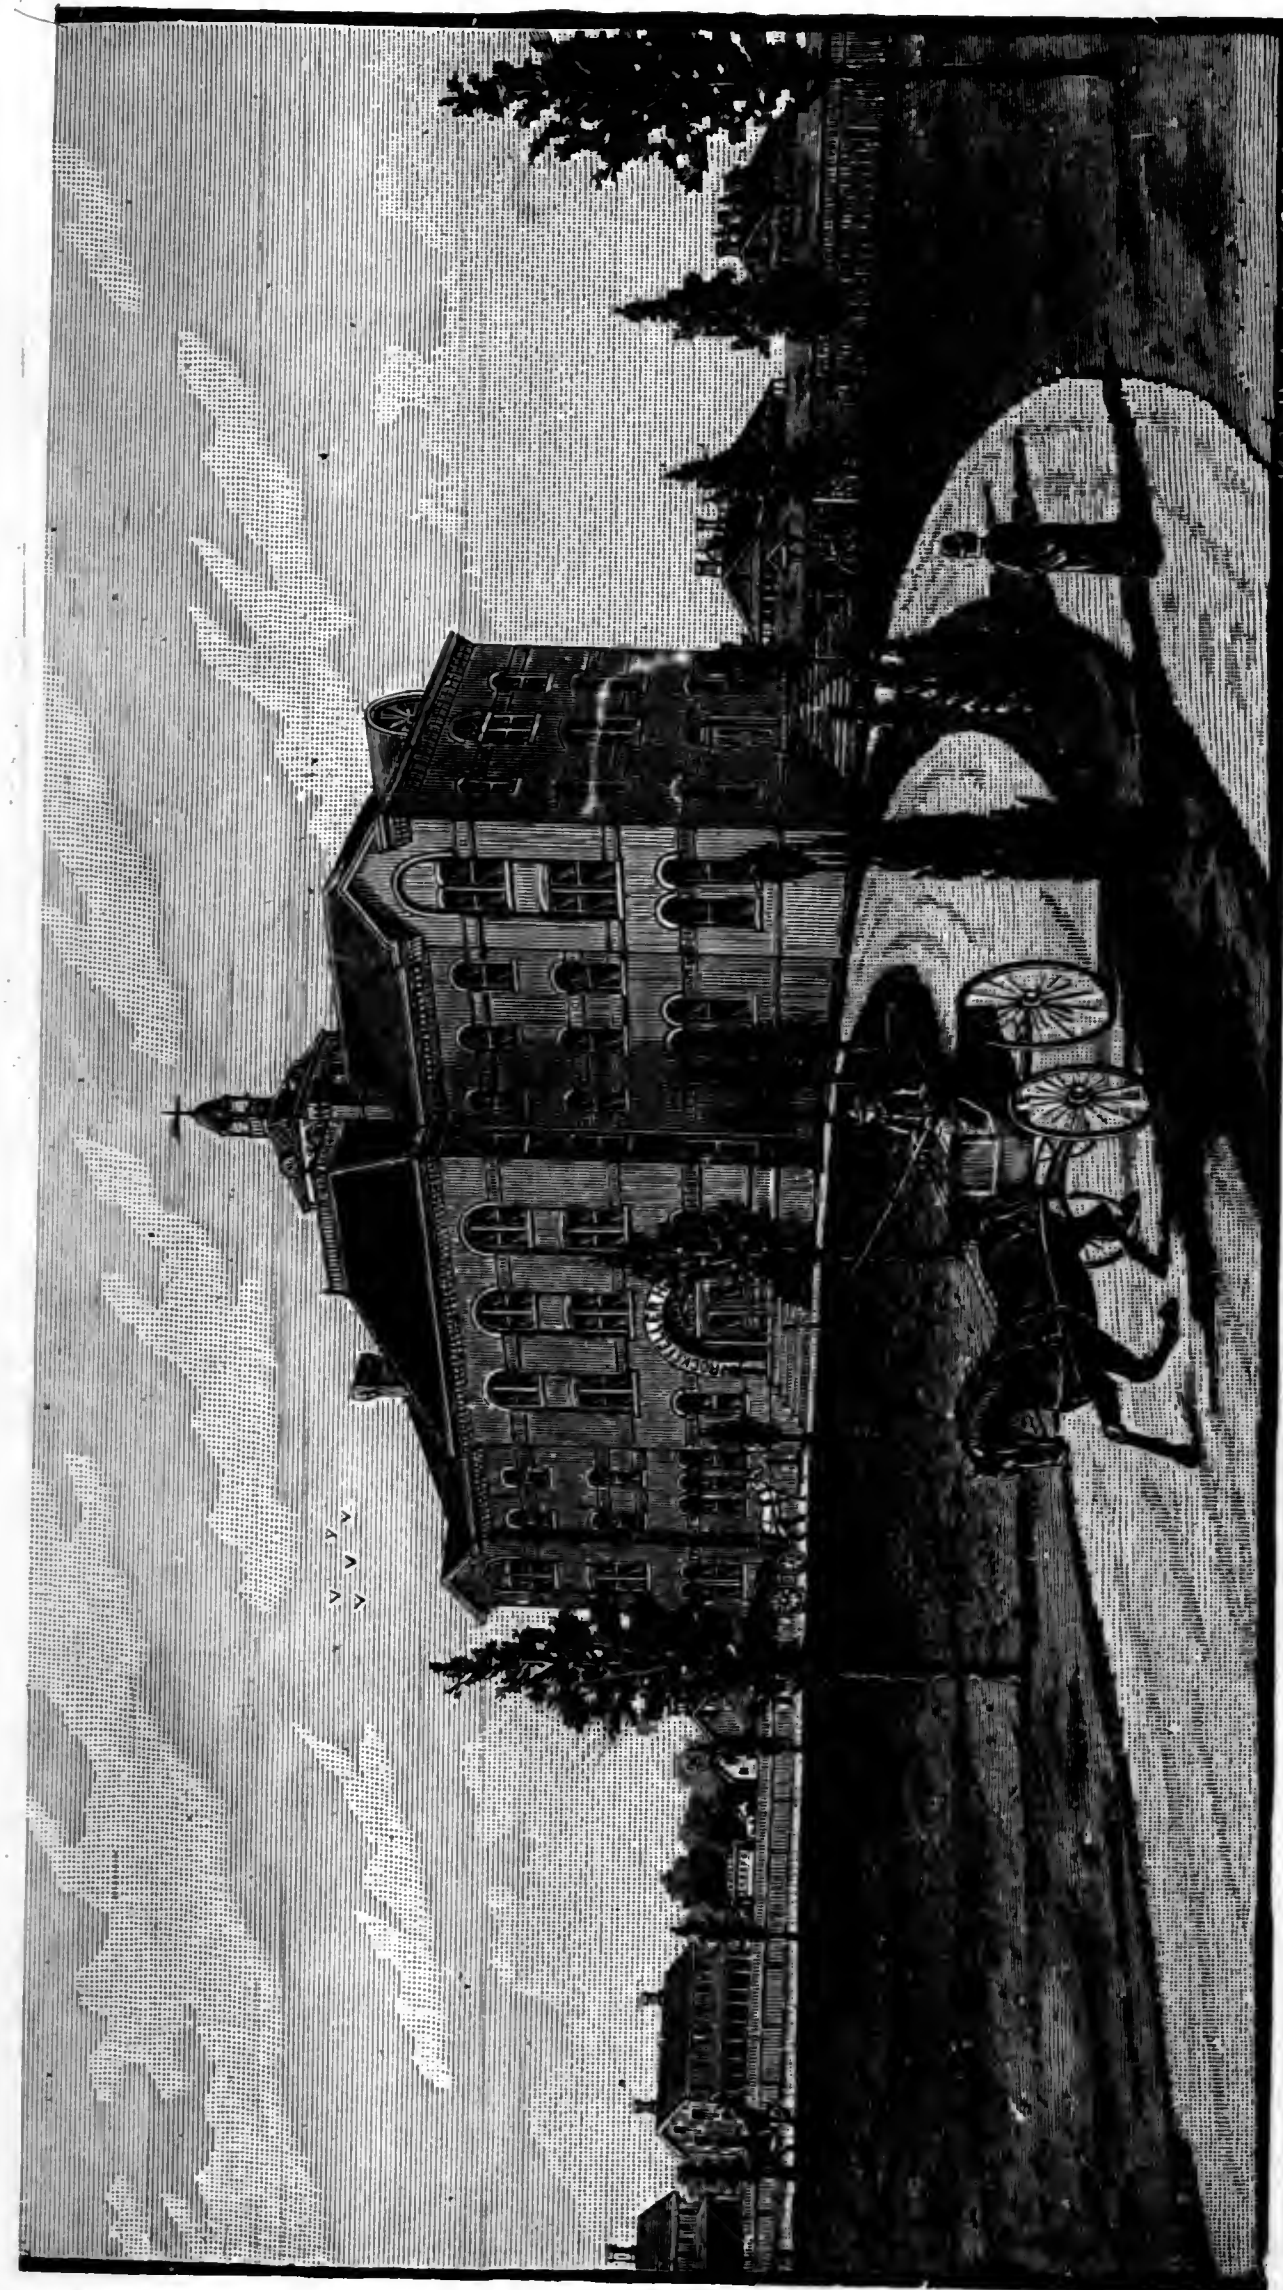

Atlanta University offers an education in Normal, College, Preparatory and Collegiate Courses, together with industrial training in Carpentry, Blacksmithing, Printing, Cooking, Sewing, Dressmaking and nursing, at a total cost of from \$92 to \$96 a year for each student, including furnished room and board for eight months.

**TO CAPITALISTS:**

The education which Atlanta University gives to the needy people of the South, renders your investments in this region more secure, increases the demand for the merchandise which you desire to sell, and renders more intelligent and efficient the labor that you employ. An endowment of at least \$500,000 is needed to put the institution on a secure and permanent basis.

## INTRODUCTION.

Last year, in response to numerous requests, I arranged to bring the Directory out a little before the first of the year and this gave such universal satisfaction that it is repeated.

An eventful year has passed since the last issue—a year that will pass into history as being laden with depression in business, discontent and agitation of labor, shrinkage of values and great financial ruin covering the entire country and yet Atlanta has only experienced the depression in common with sister cities, and not sufficient to embarrass the large industrial concerns or monetary interests, and the year's record of manufacturing and business transactions, transfers and building operations, while not by any means up to our usual average, nevertheless, gives evidence of anything but complete stagnation.

Ten years ago the introduction to the Atlanta City Directory for 1885 congratulated its patrons on the possession of a City Directory containing 480 pages at the same time announcing that the population of the city at that time numbered 56,837 persons. As compared with the 1875 Directory this was a most encouraging showing indicating that the city had doubled during the interval. The present work—the XIX volume—has 1,407 pages and shows a population of 108,644 as found and enumerated during the canvass for the work and evidences an even greater ratio of increase during the past decade. It would have seemed extravagant in 1874 to have stated the belief that in 1884 the city would have contained 50,000 and equally extravagant again in 1884 to prophesy that in ten years Atlanta would be in the 100,000 class of cities and I expect that my sanity will be doubted when I predict that those of us who live to see A. D. 1905 will see Atlanta very near the 200,000 mark.

This nineteenth volume of the Atlanta City Directory and the ninth consecutive volume issued by me has been prepared on the same general lines as former editions and in the style with which our people are quite familiar; unceasing care has marked every step of the work, for I realize that in publishing the Annual City Directory of Atlanta I am in a great measure identified with the record of the city's growth and progress and responsible for an accurate and truthful exhibit in this regard.

I desire at this time to renew my expressions of sincere thanks to the patrons who have for so many years extended their aid and assistance in the support of a work so useful and necessary, and to add that it will ever be my aim to avail myself of every opportunity of improving the work and making it more popular and more necessary with each succeeding issue.

December 15, 1894.

H. G. SAUNDERS, Manager.

## EXPLANATION.

In the following list it will be observed that all Streets, Avenues, etc., are arranged in alphabetical order, with named of occupant found at each number. The name of each street is given, showing what other streets and places run from it or across it, at the point at which they intersect.

The Union Depot on Wall Street, from Loyd to Pryor, is the central point of the city.

The following are the central streets from which others are numbered: Decatur and the W. & A. R. R., and West Peachtree and Whitehall.

To find the occupation of householders, refer to Alphabetical List of Names.

# ATLANTA SCHOOL OF ART,

"THE GRAND," PEACHTREE STREET,

**ATLANTA, GA.**

**Director of Art: ROBIN PALEY.**

**Instructor in Drawing, Painting, Modeling, Etching and Industrial Design.**

Gold Medalist of Antwerp; holding Diplomas from S. Kensington Museum of Art, England,  
A pupil of E. J. Poynter, R. A. at the Slade School of Art, London; and of Chas. E. Verlat,  
and Jos. Van Luppim at the Royal Academy of Fine Arts, Antwerp; where he  
successfully competed and won a Gold Medal, Wreath, and "Atelier." For  
three years Professor of Painting at the School of Art, Ottawa,  
Canada. Exhibitor at the Royal Canadian Academy and  
some of the principal Exhibitions of Europe.

## THE SYSTEM.

The system of teaching is similar to that adopted in the best European  
Schools of Art, and includes instruction in Drawing and Painting from Life,  
Still-Life and Nature, rather than from flat models. No examination is  
necessary for entering the School.

## SCOPE.

Elementary and advanced classes in all branches of Art taught.  
Painting in Oil, Water Color and Pastel; Drawing in Charcoal, Crayon,  
Pencil, Pen and Ink; Clay Modeling; Journal, Magazine and Book Illustration  
by modern processes; Architectural, Mechanical, Perspective and Geometrical  
drawing; Building Construction, Wood Carving, and Out-of-door Sketching.  
Students will be prepared for entry into the Northern and European  
Schools of Art, as well as for remunerative positions as Art teachers.

A competition will be held annually, at which it is proposed to award a  
Free Scholarship and a medal.

Diplomas and Certificates will be granted for proficiency in the various  
branches of Art to students taking a three years' course.

The Studios are available for practice free of charge at any time during  
the week (lesson hours excepted) to students.

Exhibitions of Pictures, Lectures on various subjects relating to Art,  
Musicales and Conversazione of the School are held from time to time.

Full particulars will be furnished those wishing to dispose of their paint-  
ings. Prompt attention will be paid to orders for pictures, designs and illus-  
trations.

## EQUIPMENT.

The School is thoroughly equipped and contains a Gallery of Paintings in  
Oil and Water Color, as well as a valuable collection of Statuary from cele-  
brated Greek, Roman and other well known examples.

Good earnest work has been done in the School which has been well  
patronized during the past year and the results are decidedly encouraging.  
There are between sixty and seventy names on the attendance list.

No. 49 W. Hunter St., (Field's Old Stand.)  
ATLANTA, GEORGIA.

Every Horse-owner knows we do the best work in the city. We have had 20 years experience in the business, in the largest cities in the world. We have made a Horse's foot a study, and know how it should be shod. If your horse is lame in the foot from any cause, we guarantee a cure where there is a possibility. We prevent interfering and forging in the first shoeing. Give us a trial and you will come back if you are a lover of horse-flesh. Horses sent for and delivered to all parts of the city.

"The Bible, and Science and Health," written by Rev Mary Baker Eddy, the discoverer and founder of Christian Science, are the only text books of Christian Scientists. It is without creed or dogma, but the tenets of Christian Science are—

**TENETS.**

1. As adherents to truth we take the scriptures for our guide to eternal life.

2. We acknowledge and adore one Supreme God. We acknowledge His son and the Holy Ghost, and man as the divine image and likeness.

3. We acknowledge God's forgiveness of sin, in the destruction of sin, and that sin and suffering are not eternal.

4. We acknowledge the atonement as the efficacy and evidence of divine love of man's unity with God, and the great merits of the wayshower.

5. We acknowledge the way of salvation demonstrated by Jesus to be the power of truth over error, sin, sickness and death, and the resurrection of human faith and understanding.

to seize the great possibilities and living energies of the divine life.

6. We solemnly promise to strive, watch and pray for that mind to be in us that was also in Christ Jesus to love one another, and to be meek, merciful, just and pure.
